Can run Scripts? Can I get one?

Imperishable - March 22, 2017, 11:48 am

I'd like to get one slot please. What are the specifications? Does it have cpanel?
Assuming you to be a reseller, how long do you plan to run this business?

Hit me up with the required information, and I'll get you set up.

It's a reseller cPanel, so I am able to create hosting accounts for you guys. I am running this in courtesy for people who can't afford hosting in my affiliate mentorship group so I believe it'll last quite a long time.

Also no high-bandwidth scripts @.Sickness

As long as it lasts, yes. I have no plan to stop it since I am doing this to help my affiliates.
