Thread: [I am making the Mr.Robot Text adventure Game](#)

Morphine - March 22, 2017, 11:09 am

I am making the Mr.Robot Text Adventure Game in Python?
My English is not Perfect.
The game will be too long with Y/N Response
Will be good ?
Anybody suggestions?

I mean, if it gets you interested in programming, why not?
Honestly, no one will play it, but that shouldn't be your goal right now.

captainspalding - March 22, 2017, 8:05 pm

Sounds like a fun project to practice coding. My first python projects were text based games.

I look back and cringe at how bad my code was, but I learned from the experience!

Im not making it for money,just for fun and test my skills in python

RookMade - March 23, 2017, 1:02 am

I will play it!

Please make this for us!
