Thread: [Pepper on my eyes](#)

crackked - March 24, 2017, 11:36 am

What other effects can pepper have on my eyes except from the irritation?

Some crazy lady pepper sprayed me thinking i was following her....

rsx - March 24, 2017, 11:38 am

It could cause nerve damage, but since you only got sprayed once you should be fine in a few hours

afraid so ?

verydank - March 24, 2017, 1:01 pm

i'd say spray it everyday to see the effects

Cyaddd - March 25, 2017, 5:10 pm

Why were you following a scared old lady you creep.

Pretty sure you're fine. It's not as bad as pepperspray but I often dry out "superhots" as well as turn them into sauce. I've gotten pure capsicum in my eyes many times.

fendiboy - March 26, 2017, 12:49 pm

Damn how bad did it hurt??
