Thread: [Free 5\\$ code WWW.CSGOARENA.COM \(No Referral\)](#)

Roberto Scorpius Malfoy - March 25, 2017, 7:29 am

Hello,

I am a admin of a popular CSGO gambling website called CSGOArena.com

Since we are fairly new, I am offering a promotion for all of you (don't worry its not a referral and you dont have to deposit to be able to withdraw).

I have 5\$ gift codes that I want to give out so you guys can test our site. First, PM me, then ill message you back with the code. JUST ONE CODE/MEMBER

*You have make 5x your 5\$, which is 25\$, this is to prevent people using the code then withdrawing instantly.

Thanks,

The weapon prices are so off on this site if you win \$50 you can only withdraw maybe \$30 because the prices are almost halved.

Hello this is the second time you write something stupid.

First you complained about the withdraw system and you could not bother to read that you have to bet 5x the code you got which is 25\$

And now you are complaining about the prices?

We uses Steamanalyst på mostly all weapongs + 7.5% withdraw fee
we dont have any wager when you deposit skins.

EDIT

Do i have to make a bigger text next time before you understand it?

Got around three codes to give out now. Only upgraded members.

Doesnt matter how much balance you have. Read the motherfucking terms

You have to bet 5x the code you got.

So if i give you a 5 dollar code you have to bet 25\$ in total to be able to withdraw.

As i said the prices comes directly from Steam Analyst which every betting site uses. Yes you can withdraw no one have ever had this problem before you are just mad because you ended up losing all of your money which made me happy since i hate idiots like you.
