Make Money On Fiverr Selling Cartoons

What We Will Be Doing?

Short answer – we'll be delivering Cartoons to our buyers! All you'll have to do is copy-paste the cartoon you've created and send it over to your buyer – That's it!

What is amazing about this Gig is that you can easily make much more than the standard \$5 per Gig as there are plenty clever ways to make money on upsells as well!

The best thing about it is that:

- often times people will order more than just one cartoon,
- they'll recommend your Gig to their friends and family,
- they'll come back to you each time they will want to buy a present for their friends/family

Let's start...

Account Creation

So we will have to create a new Fiverr account and name it accordingly to what we'll be doing...

Note – if you have an existing Fiverr account with your name as the nick, you're good to go. However, if you have an account that was being to sell Gigs in a different Fiverr niche (like video, reviews etc) than you should consider opening a new one!

Try to look for names like 'yourname_cartoons', 'cartoons_by_yourname' or something similar to maximize your sales.

You can also use your name and leave it open for future Gigs you might want to sell in the near future! However, naming your account with your name keyword (cartoons) will actually help you to rank better in the Fiverr search results!

Also, make sure that you mention 'cartoons' in your Bio (this will also help you to rank you better) and make your profile more attractive by adding an eye catching profile photo (photos of cute girls always work very well here).

In the description of your Bio, make sure to position yourself as an expert in the field.

Gig Creation

The three main categories we will be creating Gigs in are 'Graphics and Design – Cartoons & Caricatures', 'Graphics and Design – Illustration' and 'Graphics and Design – Other'. You can also create Gigs in 'Fun & Bizarre – Just

For Fun' and 'Fun & Bizarre – Other' for more exposure by basically creating the same Gig but wording it differently and using a different image.

The first thing that people will notice while browsing Fiverr is the photo you'll choose for your gig so it really needs to be something that stands out and is eye catching! I experimented with a lot of different options but what works the best for me (for any type of gig by the way) is a photo of a cute girl.

It can be something like this (I created it in Paint in 2min!):

When creating a new gig make sure to add the keywords to the title, throughout the description and also in the tags. Also add the word 'Fiverr' a couple of times in the description of the Gig (by writing something like 'If you are on Fiverr because you're looking for an amazing custom cartoon - you are in the right place!' etc). Again, by doing this, your Gig will be ranked higher in the Fiverr Search Engine.

When it comes to delivery time, I suggest this: Always deliver in 24h – it takes 2-3 minutes to create a cartoon and by delivering fast you'll get a competitive advantage over anyone else that is selling a similar Gig.

If your account is brand new then your focus should be on getting ten 5 Star reviews from your buyers as soon as possible. When your account will be 30 days old, it will automatically be promoted to 'Level 1 Seller' status! As a 'Level 1 Seller' you'll be able to add 'Gig Extras' to your Gigs and that's where you start making much more than just \$5 per Gig.

sample headline, description and tags!

Please DO NOT just copy and paste these! Be a bit creative and make yours different and unique –

that's how you'll make all the difference in your Fiverr business.

Sample headline:

Code "I will design any custom cartoon for \$5"

Sample description:

Code If you are here on Fiverr because you're looking a custom made cartoon, you are in the right place... I will create an amazing, original cartoon according to your specifications! You either tell me how you want it to look like or send me a photo I can base the cartoon on. I'll make sure that you are 100% happy with my delivery and make the most out of your Fiverr. If you have any questions do not hesitate to contact me!

'YOUR NAME'

P.S. I'm including a Free Gift with all my Gigs – Order Now!

Sample tags:

- "cartoon",
- "caricature",
- "character",
- "funny",
- "original",
- "custom".

I have had good luck with sonex's methods so far. I've tried a handful of his methods, as well as purchased his book. If you need to make some money, there shouldn't be any doubt in your mind that this will work.

If sonex posted it, you can take it right to the bank.

I'm going to be giving this a trial run tomorrow. I'll post updates as I go.

Sonex's method is great but the problem is that the niche is too competitive. If you scroll through these two niches you'll see that there are higher level sellers than you which offer the same thing on low price too. after about 1 week I have about 100 clicks but still no orders. It's just too competitive already.

Hence you can do 2 gigs for the price of 1. Be creative though, get that rank up and it will be easy as hell afterwards.

Bullion - August 25, 2017, 12:17 pm

The hardest part is getting customers. I had a Fiverr page and I offered a good service that was 100% authentic and made by me. It was voice over work. I have a high quality microphone and professional studio software. I was able to sell one voice over in a week. Becoming a popular seller on Fiverr is harder than becoming a popular YouTuber. There is way too many people on that site offering services just as good as everyone else.

Nice idea, I think it's worth giving it a try. Nothing to lose if you have some time to spare on such stuff though.

No offense, this method is absolute shit as fiverr is so saturated and already dominated by other sellers. Fiverr isn't profitable for newbies at all (basically, if you haven't joined in 2010-2013, you're fucked).

Not correct. I wont even bother saying why but you have to be really dumb not to know how to take advantage of "saturated" market.

Make Money On Fiverr Selling Cartoons

What We Will Be Doing?

Short answer – we'll be delivering Cartoons to our buyers! All you'll have to do is copy-paste the cartoon you've created and send it over to your buyer – That's it!

What is amazing about this Gig is that you can easily make much more than the standard \$5 per Gig as there are plenty clever ways to make money on upsells as well!

The best thing about it is that:

- often times people will order more than just one cartoon,
- they'll recommend your Gig to their friends and family,
- they'll come back to you each time they will want to buy a present for their friends/family

Let's start...

Account Creation

So we will have to create a new Fiverr account and name it accordingly to what we'll be doing...

Note – if you have an existing Fiverr account with your name as the nick, you're good to go. However, if you have an account that was being to sell Gigs in a different Fiverr niche (like video, reviews etc) than you should consider opening a new one!

Try to look for names like 'yourname_cartoons', 'cartoons_by_yourname' or something similar to maximize your sales.

You can also use your name and leave it open for future Gigs you might want to sell in the near future! However, naming your account with your name keyword (cartoons) will actually help you to rank better in the Fiverr search results!

Also, make sure that you mention 'cartoons' in your Bio (this will also help you to rank you better) and make your profile more attractive by adding an eye catching profile photo (photos of cute girls always work very well here).

In the description of your Bio, make sure to position yourself as an expert in the field.

Gig Creation

The three main categories we will be creating Gigs in are 'Graphics and Design – Cartoons & Caricatures', 'GraphicsNand Design – Illustration' and 'Graphics and Design –NOther'. You can also

create Gigs in 'Fun & Bizarre – Just

For Fun' and 'Fun & Bizarre – Other' for more exposure by basically creating the same Gig but wording it differently and using a different image.

The first thing that people will notice while browsing Fiverr is the photo you'll choose for your gig so it really needs to be something that stands out and is eye catching! I experimented with a lot of different options but what works the best for me (for any type of gig by the way) is a photo of a cute girl.

It can be something like this (I created it in Paint in 2min!):

When creating a new gig make sure to add the keywords to the title, throughout the description and also in the tags. Also add the word 'Fiverr' a couple of times in the description of the Gig (by writing something like 'If you are on Fiverr because you're looking for an amazing custom cartoon - you are in the right place!' etc). Again, by doing this, your Gig will be ranked higher in the Fiverr Search Engine.

When it comes to delivery time, I suggest this: Always deliver in 24h – it takes 2-3 minutes to create a cartoon and by delivering fast you'll get a competitive advantage over anyone else that is selling a similar Gig.

If your account is brand new then your focus should be on getting ten 5 Star reviews from your buyers as soon as possible. When your account will be 30 days old, it will automatically be promoted to 'Level 1 Seller' status! As a 'Level 1 Seller' you'll be able to add 'Gig Extras' to your Gigs and that's where you start making much more than just \$5 per Gig.

sample headline, description and tags!

Please DO NOT just copy and paste these! Be a bit creative and make yours different and unique – that's how you'll make all the difference in your Fiverr business.

Sample headline:

Code "I will design any custom cartoon for \$5"

Sample description:

Code If you are here on Fiverr because you're looking a custom made cartoon, you are in the right place... I will create an amazing, original cartoon according to your specifications! You either tell me how you want it to look like or send me a photo I can base the cartoon on. I'll make sure that you are 100% happy with my delivery and make the most out of your Fiverr. If you have any questions do not hesitate to contact me!

'YOUR NAME'

P.S. I'm including a Free Gift with all my Gigs – Order Now!

Sample tags:

- "cartoon",
- "caricature",
- "character",
- "funny",

- "original",
- "custom".

I have recently seen people resell this on social medias, I might create a guide about it if anyone is interested.

sonex - July 28, 2020, 2:11 am

Is anyone interested in knowing how to re-sell this on social media platform such as Facebook/Insta?

FujiToday - July 28, 2020, 7:01 am

The gig reselling method is nearly dead. Too many people are doing this all over the place you can imagine, even the clients aren't dumb. They know they're being charged for higher price and it's not like they don't know sites like Fiverr exist.

Now if you really want to make a living income from gig I suggest do the difficult stuffs that few people can do. One prime example is game industry - which is still young on Fiverr. Start learning C#, Unity, Android, Kotlin and go up from there. There're just too many web developers, graphic designers, marketers already.

I'm in the IT Industry (Senior Systems Engineer) but I thought about diving into learning Python for transitioning to a Software Developer / Engineer role, I also at one point though about trying to learn Unity to do game design but I never started honestly.

What kind of things are people looking for on "fiver" I just don't see it working out, nothing is easy or cheap about programming / game design. It would be hundreds of dollars to come up with a solution, or weeks to make custom programs to do various things a client wants to automate, etc.

sonex - August 9, 2020, 1:51 pm

Appreciate the input guys, you should probably make few threads explaining your ways for community to learn more. Cheers!

From your experience pls

How do you spot unsaturated niches on Fiverr?

I know there are sub niches that if you get in early you would make a killing but how does one go about it?
