Thread: [Real UK SIM Cards - Perfect for Phone Verification!](#)

Rod\$ - March 26, 2017, 6:13 am

Hey Ub3rs

So I use real sim cards for Instagram and when my accounts get banned I am left with lots of sims, they are real sim cards with +44 numbers, clean, Vodafone numbers that will bypass everything and anything.

I am happy to let you use them for your needs as long as you agree to a few simple rules:

- >Please do not use my cards for anything 'highly' illegal
- >Please do not be rude

That's it!

Do have access to this free service you will need skype or telegram messenger for the simple fact i am not going to do this all over hf pms as it would be tedious, Instant messaging makes it easier for both parties.

So, the next time you need to verify a number on anything, Please PM me your IM.

Kind Regards

~Rod\$
