ControlAltDestroy - March 28, 2017, 10:32 am

As the title states, looking for people that play this game, teamspeak & active.

Fortified Design - March 28, 2017, 10:38 am

I seriously have not played this game in ages. Is it still even a thing or am I thinking of another game. I'm thinking 2006-2008 sort of thing.

ControlAltDestroy - March 28, 2017, 10:43 am

Yes, a Nexon game, came out in 2008. They have done a lot to the game recently. They currently have the project #MakeCAGreatAgain

Fortified Design - March 28, 2017, 10:44 am

It was innovated. I stopped playing because of hackers.

ControlAltDestroy - March 28, 2017, 10:53 am

The hackers have slowed down compared to years ago. Let me know if you want to play again, I have a active clan & teamspeak.

Its not to bad, due to their recent merge with EU. So the players have increased slightly

shreder - March 30, 2017, 8:26 am

ControlAltDestroy - March 30, 2017, 9:09 am

They just unbanned 3 of my accounts that were banned 2 - 6 years ago within the past 2 months. A lot of new changes and new ban rules.

So EU people play with NA people? That sounds pretty horrible.

Keep trying, They've told me no for years & end up unbanning me. My m8 with 2,000 kill streak just got unbanned yesterday lol but they deranked him to T

Its bad, I wont lie but some EU's are cool. I'd say the turkish people are the worst on this game by far now. They report you just for saying "lmao"

xboxhacks - April 1, 2017, 4:45 pm

It definitely died down a lot, but now their campaigning "#MakeCAGreatAgain"

Doubt they'll make anything "great" but w/e I enjoy the community on the game. Especially being in xBI00dBr0th3rsX

Pm me, I don't mind making tickets for people to get unbanned, like I said they are mass unbanning people, legit/ & none legit.

temporra - April 4, 2017, 2:21 pm

I stopped playing when they banned my account with \$200 of items on it for having Cheat Engine open and injecting into chrome (not CA!). Tried to appeal but support was stubborn. Piece of shit AC. Good memories though.

Copywriter - April 4, 2017, 2:22 pm

Tentefk - April 4, 2017, 3:06 pm

They prob didn't delete it, add a "!" or 2 of them in front of your ign. Due to the NA merging with EU, people with the same ign as someone in EU it added ! infront of NA players ign's
