Shingeki no Kyojin Season 2Attack on Titan Season 2

Synopsis courtesy of MangaHelpers

Several hundred years ago, humans were nearly exterminated by titans. Titans are typically several stories tall, seem to have no intelligence, devour human beings and, worst of all, seem to do it for the pleasure rather than as a food source. A small percentage of humanity survived by walling themselves in a city protected by extremely high walls, even taller than the biggest of titans.

Flash forward to the present and the city has not seen a titan in over 100 years. Teenage boy Eren and his foster sister Mikasa witness something horrific as the city walls are destroyed by a super titan that appears out of thin air. As the smaller titans flood the city, the two kids watch in horror as their mother is eaten alive. Eren vows that he will murder every single titan and take revenge for all of mankind.

I wish that they released this sooner because from what I've seen, they hype for the series has died down quite a lot. I know it's still fairly popular but not like it once was before.

Agramon - March 29, 2017, 1:45 pm

Its about time! They waited too long to make a second season and kept delaying it...

Realizm - March 29, 2017, 2:46 pm

Yeah they've lost a lot of traction with delaying for so long but there are going to be a lot of people who watch it I'm sure.

So much dead hype for this series. Oh well, will obviously still see it through and probably enjoy it but damn they sure did take their sweet time. Better be worth it!

i love aot but i preffered the first ep of boku no hero academia ;p

joyboru - April 2, 2017, 10:25 am

I was disappointed by the first season finale. The second season took way too long to come out. Too much hype on anticipation.

This may be a bit off topic.. but, I'm honestly waiting for the second live action. The first one was gross and a bit off but I'm mostly curious about the CG and what alternate retelling will occur.

Currently no luck of renting it. It is always out of stock when I go to the video store.

How long after the season finally does this season take place?

I'm waiting to watch this for another couple of days.

DerMensch24 - April 2, 2017, 2:24 pm

Watched ep 1 last night, somewhat starts where we left off at the end of S1. However, I think that the fact that this will only be 12 eps along with the wait of 4 years may harm the series overall. Also, the OP doesn't convey the same emotion that the other two did in S1.

DoubleRainbow - April 2, 2017, 6:02 pm

I am looking forward to watching this when the series has finished airing. It's been far too long since it was last on and I know it'll probably disappoint in the end but I would at least like some closure on

the series, hopefully. I don't read manga so it's been a long wait to see what happens next.

Realizm - April 3, 2017, 9:39 am

I can't believe it's been 4 years since S1. And they are only doing 12 episodes... this has the potential to be like One Piece or Naruto that airs once every week and stuff. So much hype and everything wasted...

I read somewhere that they were waiting for the manga to pick up pace. That's understandable considering how shows have gone their separate ways and failed miserably in the past, but 4 years is still a bit too much.

Like most of the others mentioned, a large share of the hype has gone down and I probably won't be watching this for a while. At least not until I re-watch S01.

Agramon - April 9, 2017, 2:05 pm

Tbh Naruto & OP are gone to shit because of this.

Naruto has gone to shit a lot more than One Piece, though One Piece does have it's moments of being shit. I at least keep up with One Piece still which has a lot more episodes than Naruto, and I had to drop Naruto to wait for it to finish and then I can binge. Though I'll probably look up ways to watch without the ridiculous amount of fillers that will save me like 30+ episodes I'm guessing.

However... both of those shows brought in a shit ton of money and are still going because of that. Naruto just got it's own spin off it's so popular, and I'm sure once One Piece gets towards the end there will be some sort of spin off of either following the King of the Pirates from where he started all the way up until the end or a few generations later where somebody tries to be King of the Pirates or even the World.

Which is why I said that about AoT, because it's had the hype and everything to become one of these mainstream anime's that is massive and goes for years with possible spin offs. But I feel like they've ruined a lot of their built up hype by waiting so long. And now with only 12 episodes and nothing released for news of a guaranteed 3rd season or answers as to why we only have 12 episodes, people aren't happy after waiting so long.

Nyctophiliac - May 6, 2017, 12:43 pm

It was good to finally see some action, however I feel that the exhibition and usage of flashbacks has been overused in the anime thus far, especially for only 12 episodes whereas the first season only used it in a few instances at most. However looking forward to the next ep which will hopefully live up to the anime's vigor.

I believe this is a result of a few factors, primarily the delay in the series that killed the hype, as well

as the shortness of the season so that you either don't have enough time to get "attached" to characters since most are recycled or carried over from the first season. I also have found the story to be very stagnate due to the over usage of flashbacks and bits of exhibition compared to the first series.

demonbruno - May 16, 2017, 2:49 pm

I hope that the anime differs from the manga. The manga was not horrible, but it wasn't what i expected either. But btw, the animation of the battles in this season are superb and the lore is unravelling itself slowly. Really looking forward to the next episode =)

I agree with this sentiment right now, but I really think this will change in the coming episodes. Just speculation, but I feel like this current "chase" sequence is building up to a big and gruesome battle possibly involving an abnormal or beast titan.

I concur, I am still wondering why they only chose to have 12 eps for this season still, but so far I don't think the anime has lived up the hype as much as some storytelling elements and the focus seems to have altered a bit from its raw first season.

From what I hear the manga has enough content to make an equally long season as the first. I'm wanting to think they're going to make the third season longer with everything we've been wanting to know. But this season definitely seems rushed a bit, but I think this subtle storytelling has created a sense of new hype, because like you mentioned the focus has altered, and now we're starting to understand the current plot more clearly.

Spoiler ([Click to View](#))All of a sudden we learn that more people can transform and that titans (even though this was kind of obvious) used to be humans. Even then they need more original material. I don't think they're interested in straying from the source after this insane delay.
