Falcone's Free Life Coaching!

In university I took psychology before switching to business and then leaving. But while taking my psychology degree I learned a lot about helping people and i'd like to do that as I know a lot of people like to spend their days on the internet because they are sad, depressed or just don't know what to do with their life. And because of this I'll be giving everyone free Life Coaching Advice. The only condition is if I feel you are trolling or wasting my time I will just leave as I'm busy and this service is taking up the last bit of my free time.

I hope to PMs and if you don't need this but feel depressed i'd recommend contacting an actual doctor or therapist. Goodluck and Thank you for reading!

offtopic but seems kinda weird that you're only offering to upgraded members.
