im not salty i do cheat on my main but these kids are beyond blatant and they get away with it. if i played like they do on my main i'd be banned without a doubt

zohanhacks - March 30, 2017, 5:41 pm

i get an average of 35 kills a game and dont get banned after 178 games

Invexination - March 30, 2017, 5:41 pm

Is it not obvious?

They use sket chet and are protected by the holy transgender gods. This ensures they will never be banned in an online video game.

All you gotta do is send leg pics and they will be forwarded to Valve to ensure you never get banned.

Why do you always mention skeet whenever you can?
Still raged about your ban?

This exactly. No sympathy what so ever for you people. Report people who cheat and they will get banned.

JUSTIN - March 30, 2017, 7:36 pm

Cheating and complaining about cheating is actually really stupid. Makes literally no sense.
If you care that much: simply don't cheat, play prime, play ESEA. I bet ESEA costs less than your

cheat sub.

Hard not to cheat when youve cheated for so many years.

Tfw accusing me of being mad about a cheat for a game I haven't played in months. I have more important things to deal with in life like Uni. Perhaps you should try taking something other than the Internet seriously.

If you had a brain it would be obvious I was making a simple joke. Then again, can't expect a bunch of edgy 14 year olds who change their gender on a daily basis to have basic comprehension skills, so perhaps I over estimated you guys by making that joke?

Ahmad - March 30, 2017, 8:59 pm

They just don't????? Lol not everyone is going to get abnned

YRN_ - March 30, 2017, 9:01 pm

onlineprofessional - March 31, 2017, 12:31 am

Buy reports from someone? It's cheap.

<http://steamcommunity.com/profiles/76561198073565337> \$0.5 for each report, if they don't get banned you'll get 1 free report.

Play prime, top kek. There are plenty of cheaters in prime. ESEA is a good choice though

There are for sure. The amount of cheaters in ESEA is a lot lower than prime though

I've never played a cheater in esea or if I did you never notice.

That is because we hide it pretty good on ESEA.

You want to play well, but not stand out to attract unwanted attention.

edit: there are more cheaters on there then you would expect ?

You don't notice because ESEA has successfully programmed you to not notice, it's that unrealistic sense of safety from cheaters while playing on ESEA. Excellent marketing propaganda really, well done by ESEA.

Oh I realize that, but I'm happy as long as I still have a chance of beating a cheater. There are tons of ESEA cheats just hard to find when you have no money to spend.
