Well, the partnership was more than 6 months ago which happened to be last year.

I didnt receive any btc in my btc wallet below yet.

I specially created this btc wallet to receive the payment but I didnt receive any btc yet since last year.

Now I'm asking for the maximum payment which is US\$1800 BTC(including my own US\$500 btc in it).

This deal dispute will remain here forever, or I get my btc back plus profit. I'm asking the maximum payment which is US\$1800 btc.

Anyone can check whether he pay or not in this btc wallet below
