Thread: [\[GFX\] FREE Thread Design, Signature, or Logo for your product](#)

G*59 - March 31, 2017, 2:00 pm

Doing a free simple thread design, signature, or logo for your product/business. First 3 l33t/ub3rs to comment get a design. Post what you're looking for or send me a PM. Keep it minimal please, I'm not going to spend too long on each one. I'm not a professional designer by any means, so it will be basic but you can get an idea of what I can make by looking at my thread designs. GL ?
