Thread: [M0NST3R EN3RGY | SELL MY BTC -> YOUR PAYPAL | BUY YOUR BTC -> MY PAYPAL](#)
[| Live Chat](#)

M0NST3R EN3RGY™ - March 31, 2017, 5:54 pm

You need to get some fast cash for your BTC? Look no further.
You need to get some BTC for PP? Look no further.
You want live chat trade? Look no further.

LIVE TRADE CHAT (once page loads, look for chat button in bottom right corner):
<http://m0nst3ren3rgycurrencyexchange.x10host.com/index.html>

I get notifications when I get a PM or live chat message (link above) so even if I am not online on HF, if you send me a PM or live chat message, I may be able to get online to complete a trade.

FIRST READ BELOW:

I don't have the flashy images or the fancy sales thread, but can't really say I need all that. I'm a trusted user and have done many exchanges on this forum, and have been around for quite awhile (Over 7 years now.. Damn). Check my reputation. Check vouches down below. I'll let them do the talking.

Current PP stock: \$1500
Curent BTC stock: \$250

SELL YOUR BTC TO ME?
I'll buy all your BTC at a rate of 5.00%. What does that mean?

Example:
You want to sell me \$120 WORTH OF BTC. (Check how much your BTC is worth on <http://www.preev.com>).

Take $\$120 \times 1.05 = \$126$.

\$126 will be how much I sent you on PP via Friends & Family.

BUY BTC FROM ME FOR PAYPAL?
I will sell you BTC for PayPal (MUST BE VERIFIED PAYPAL & PASS ID VERIFICATION) at rate of 15.00%. What does this mean?

Example:
You want \$100 in BTC.

Take $\$100 \times 1.15 = \$115$.

\$115 is how much you will send me on PP via Friends & Family.

Example 2:
You have \$100 in PP that you want in BTC.

$X(1.15) = \$100$, Where X is amount in BTC you will receive.
So, you will receive $100/1.15 = \$86.96$

Please post here before sending me a PM. We want to keep all of the transaction information on site for best records.
