Thread: [Reddit Bot - Custom Coded - 100% Working - \\$20/copy - WITH SOURCE](#)

exploit.c - April 1, 2017, 10:46 am

Hi all,

I'm selling the source code to my custom coded, multi-bot reddit bot, for only \$20.00 via BTC or PayPal (Trusted Only), it includes full access to the source code.

This is the only successful bot that will never get auto-compensated by Reddit, nor detected. It is sophisticated and autopilot. Comes with exclusive method on how I do it all, and well documented code

Some information:

What the bot can do? [\(Click to View\)](#)

It is multi-threaded bot, and can login to accounts like a real person would via clean proxies (not blocked/filtered by reddit), and upvote/comment/downvote/comment upvote/comment downvote/subscribe to subreddits/create posts on subreddits.

It's 100% custom coded, lightweight, and fast as heck. Screenshots available in screenshot tab.

Bot speeds [\(Click to View\)](#)

On a 100mbps connection, 300 accounts, 300 proxies all working, fresh I was able to post 295 comments in less than 1 minute.

Using the same network, 120 accounts, 300 proxies all working, fresh I was able to upvote by 115 votes on a post in less than 10 minutes.

These are some speeds, I can do faster and slower, it depends on what I feel like doing.

No issues [\(Click to View\)](#)

The bot has no issues. Reddit is known for automatically detecting bot upvotes/downvotes, and compensating for them -- this bot and method I wrote have NEVER been detected and reddit has never compensated for them as they appear 100% legitimate people doing the requests.

What's included in the purchase [\(Click to View\)](#)

In the purchase you get:

1. My tools (+source code)
2. My methods for securely creating accounts
3. My methods for ensuring no compensation from reddit
4. My methods/tools for getting clean non-filtered proxies

5. Tools to create reddit accounts (note: no GUI on the creation tool, it's a command line)

Pricing ([Click to View](#))

Full Package: \$20.00

Payment methods:

Bitcoin only. No PayPal unless I deem you trusted. If PayPal middleman is enforced, and will be a common agreed upon middleman.

SERIOUS BUYERS ONLY

I've given away reddit services here before for free, with satisfied people:

<https://hackforums.net/showthread.php?tid=5183354>

You get free support from me for 3 months, and I'll assist you with setup up, configuring, running your own shop, etc I'll code you your own shop so it stands out, unique, original with a custom theme.

Screenshots ([Click to View](#))

From my bragging thread I posted, which you can also see how profitable reddit is -- over \$300 in one day alone (link: <https://hackforums.net/showthread.php?tid=5183623>)

Photos:

Yes, the launcher is command line in node, the actual application however is pure C, native. The Node also acts as the fully web-server with API (talked about in "extras" section), fully automated. I can code a

It's highly profitable:

To discuss purchasing, please send me a PM.

SIM-3386134 - April 1, 2017, 11:08 am

I am very very interested in this, I will be sending you a PM shortly.

Replied to your pm ?

FreeshineJustin - April 1, 2017, 12:36 pm

Wanna tell us what language it was coded in.

sp?c?m?n - April 2, 2017, 1:38 am

Is it possible i can just buy the exe ?

Wompus - April 2, 2017, 1:52 am

I'm interested in this as well, since I have PayPal I am willing to use a middleman.

exploit.c - April 2, 2017, 5:08 am

You can, but it'll be the exact same price as the source included

(Apr 2, 2017 01:52 AM)MattieWasTaken Wrote: [\[CITE\]](#) I'm interested in this as well, since I have PayPal I am willing to use a middleman.

If you can get it exchanged? Otherwise I'll accept PayPal from you, with a middleman used.

exploit.c - April 3, 2017, 7:30 pm

Hit me up if you're interested. I'm online and selling.

Flairamp - April 3, 2017, 10:58 pm

ill buy right now, shoot me a pm. i have btc

SIM-3323508 - April 3, 2017, 11:01 pm

How many copies have you sold? I'd buy the project outright tbh.

Flairamp - April 4, 2017, 9:34 pm

just sent bitcoin, ill post a review later once i recieve

Invictum - April 5, 2017, 5:03 am

I'm very interested in this

PACKETSPPOSTSPUNKS - April 5, 2017, 5:07 am

Posting to get back, I need this.

Asset - April 5, 2017, 5:10 am

I'm very interested in this.

Have you sold any copies?

Flairamp - April 5, 2017, 6:05 am

tax id for transaction

Would say be wary of purchasing until i update this post or add another, he's responding to messages in here but not PMs. I have proof i sent that transaction and he messaged me his address in PMs which i have still.

How is this bot highly profitable? Not a big user of reddit but this is peaking my interest a bit I lol...

Thanks

ThanksI don't know where a large demand for small scale vote manipulation is. i just wanna fuck up my friends account. suppose you could advertise but not sure who wants to pay for it

just recieved, thanks good sale ill test it later

Does his account creator work for you?

SIM-3323508 - April 10, 2017, 8:03 am

Shoot me a PM I am interested brother.

Clandestine . - April 13, 2017, 7:23 am

Purchased this from exploit.c and it never worked. I've asked him to fix it for 10 days now

Just a warning to others, same thing happened to other people on his other thread

The issue is, you're never around when I'm free to fix it. So, don't say it doesn't work, I've already attempted to help fix for you via PM.

you tried once and all you said was error connecting.

Give me a time and i'll be online

occupi - April 16, 2017, 11:12 pm

Purchased (well, paid), we exchanged a few PMs but it's been a couple days since my last check-in and he isn't responding. :(

I'd love to actually get the source, etc.

Good game. You got scammed son. We all probably did.

I'll edit this if he ever gets it going lol

occupi - April 16, 2017, 11:20 pm

(Apr 16, 2017 11:16 PM)MaxiPads889 Wrote: [\[CITE\]](#) Good game. You got scammed son. We all did. Well at least it was only \$20. Still annoying though. I thought this guy was known for actually making neat stuff. I'm disappointed.
