Thank you! This platform isn't meant to only be a one-way communication, staff to members, but a multi-way communication platform so other members can help as well.

I don't have much time on my hands, but I'm over half way through with my English degree and psychology minor. If you need help, I'll do what I can.

OmniPapers homework helper is still recruiting new members!

**Goods** - October 3, 2017, 2:58 am

I would love to help I am almost in pharmacy school my major is chemistry.

Can help with a broad area of topics. Let me know.

**kpown** - October 3, 2017, 5:54 pm

Can I join as a homework helper?

I am a junior year premed student with a 3.65 GPA biology major and neuroscience minor. I am employed by the biology department at my university as a TA for genetics. Lastly I am a member of the honors college at my university.

I am most comfortable helping with biology and neuroscience/psych courses but in terms of chemistry I can handle anything up to organic chem 2.

PM me if I can join

Johnathan is a super chill guy. Joined his group and he is fantastic. Been seeing a couple people asking for help, to which I was happy to help. And if it was not to my ability, Johnathan was more than happy to as well.
