Thread: [Download functions from my pastebin](#)

?CARUs L?VE?™ - April 1, 2017, 11:45 pm

Hello all ^-^

If you've been following my video tutorials, then you'll be happy to have a script that will download a copy of functions out of my pastebin for your use.

For those who haven't seen my videos, the script opens a link to my YouTube channel, and you will have a set of my functions, and a list of tutorials how to use them. Enjoy!

Save as *.bat

Code @echo off & setlocal enableDelayedExpansion

```
call :init
echo.
echo To use these scripts, RIGHT-CLICK/COPY them from IckyScripts,
echo.
echo and PASTE into whatever script you're writting.
echo.
for /I %%0 in (1,1,%%scripts%) do (
    for /f "tokens=1,2" %%a in ("!script[%%~0]!") do (
        set "pb=%%~b" & set "pb=!pb:~0,-1!"
        if not exist %%~a.bat (
            call :download "https://pastebin.com/raw/!pb!" "%%~a.bat" && (
                echo Successfully downloaded %%~a
            ) || echo Error downloading %%~a
        ) else echo Already exists %%~a.bat
    )
)
echo.
echo Thanks for downloading!
echo.
echo See my video tutorials on how to use them
echo.
echo https://www.youtube.com/channel/UCUy4yFeuVZv7kxc2q86yQZA
echo.
start https://www.youtube.com/channel/UCUy4yFeuVZv7kxc2q86yQZA
pause & exit
```

```
:init
mode 80,40
echo.
echo Downloading to %userprofile%\desktop\ickyScripts
if not exist "%userprofile%\desktop\ickyScripts" md "%userprofile%\desktop\ickyScripts"
```

```
cd %userprofile%\desktop\lickyScripts
```

```
for %%a in ("canvas    MTKPhpCY"
    "mathMacros  R0BNdSWR"
    "plot      tmYcfTFH"
    "circle    hEW9wmEJ"
    "plotLine  QfPcDDN4"
    "rect      tCiuhJYJ"
    "ellipse   jd38Kx1m"
    "print     ae1djBvf"
    "cursorpos 9X24yL8b"
    "cMouse    Wp78VjX7"
    "swap      idiFAEj7"
    "length    8vnTsQxr") do (
    set /a "scripts+=1"
    set "script[!scripts!]=%%a"
)
goto :eof
```

```
:Download <url> <File>
```

```
    Powershell.exe -command "(New-Object System.Net.WebClient).DownloadFile('%1','%2')"
goto :eof
```

Thanks for the share mate.

Hackoo - April 2, 2017, 7:18 am

Hi ?

Thank you for this nice share, i really appreciate the method that use the array in this script
Well done ? and keep the good work ?
