The text is somewhat hard to thread, so I'd personally change that.

The line in the middle is choppy. Drop shadow effect seems random, it seems like you've used different settings for each layer, which kinda looks bad.

Besides that, the logo could use some work. Spacing, style, etc.

Can you suggest me some logo ideas?

The current logo is the one that matches my channel.

Not a big fan of the font but it looks pretty cool though and the layout is clean, I like the Android logo part.
