What I want: I am wanting a software where you can somehow load more than one YouTube account (that you own), and subscribe them all at once to an entered YouTube account. Is this possible?

Zilog80 - April 2, 2017, 5:33 am

Read, read, read, read:

https://developers.google.com/youtube/v3/code_samples/

subscription.insert method (Java):

https://developers.google.com/youtube/v3/code_samples/java#add_a_channel_subscription

Any chance I can pay you to set it up for me? (I am a novice coder)
