Not bad earnings, I used to lure on RS3 and made about 3-4k/month aswell.

Problem with luring full time;

- Methods Get Old

- Methods Get Saturated
- Methods get Patched
- etc.

Wish you luck though op.

This is cool, I'd help out with it me and a few friends used to lure back in the day but I see you're selling it. I'd buy it but I don't see anyone that got vouch copies posted any earnings from it, and it doesn't look like anyone else bought it. Awesome earnings though, LMK if the price on your sale goes down or if you're giving out some more vouch copies/wanna duo lure or something some time.

I was wanting to create an RSPS and implement micro-transactions to scale off of. I have a few ideas but I'm just not fully dedicated to it so it might cause more harm than good. I'd be down to partner up on that idea if you are familiar with the code/etc.

I'd say it's between \$200-1000/day average and then you have your bad days (\$0) and the good days...no \$ amount cuz it varries...few grand.
