This product has my vouch and i would not hesitate to buy GLWS!

The program is exactly what the OP described it to be. It's simplistic to use and has a HUGE variety of crypto currencies to choose from. If you're into crypto currency investing this program can be extremely useful, I'm personally going to use it 24/7. Overall, for \$10 you can easily make that back by monitoring and investing into crypto currencies. OP definitely has my vouch on this.
