Thread: [Clothing Line Design Needed \[PM\]](#)

Ben Affleck - April 3, 2017, 10:34 am

Hello I'm Costello Falcone and I would like to ask any talented free graphics designers to work with me and help me design a logo and multiple designs for my new clothing line. I can't say much on this thread as I don't want to get banned but PM Me for details.

*Can't say much but it conflicts with marketplace rules.

Why would someone make designs destined to be sold, for free?

I can explain in PM. As I said I can't say much because I don't want a 3 day ban for posting outside marketplace.

Designers that get into the game and willing to show people what they are able to do. (portfolio)

Designers being proud of their work and willing to advertise their skills by doing jobs for free.
(Getting credited for their work)

Many more reasons.
