Thread: [Singed to master?](#)

K l a u s - April 4, 2017, 11:29 am

Recently got into diamond with singed only, currently got 67% winrate +- 1%.

Here's my op.gg: <https://euw.op.gg/summoner/userName=art+of+running>

So you guys think I can make it to master?

bigboybigcannon - April 4, 2017, 7:44 pm

Yeah you can, you got sick win rate for now. Are you proxying or just laning?

This is the way to climb in the LOL, I thought everybody knows this already. If you want to climb the elo scale, you have to play 1 champ. :)

As far as the thread question; no. I don't think you could get Masters.... yet.

I don't think so, singed is getting countered vs almost 60% champs... good luck tho :)

Definitely. Your win rate is decent too. Difference between Diamond and Master (not that I am Master, currently in D3), is mindset and decisions, not really mechanics.

Wow sensei. Can I call you god of runners?
