Best rate on here for sure. We just did a trade for 360\$, I went first and got my money as soon as the primes were delivered.

Too bad our time zones are so different but I'll definitely hit you up again :)

I literally state in the OP that I only deal over HackForums PM.

Never deal on Skype or Discord. Simply open a contract with the code(s) + your BTC addy. When I get online and see the contract I will complete it. I am sorry you fell victim to a scam my friend. ?

How it works

Simply just open a contract with the AGC.com codes in it and set your BTC address. Once I redeem the codes I will send the 76% BTC to the address provided.

I want to deal but isn't the whole point of the contract system that both parties agree terms first before you go ahead and send anything?

Or am I missing something in the OP?

I pay 76% nothing more so not much to agree too. I also buy all amounts of AGC so not much to agree to.

If you accept 76% then open the contract with the codes in it. Ezpz

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
