Thread: [I was date raped and all I feel is anger all the time... How can I cope?](#)

ErinB - April 5, 2017, 6:19 am

I was date raped two months ago. It was brutal and honestly I haven't slept well in weeks and haven't been eating well either.

So depressed.

A bit part of why I joined this site is because I want vengeance. I wanted to learn about hacking. To see if I could hack into that bastards account and just see what kind of shit he's been saying to other girls to lure them and earn those girls what kind of fucked up bastard they would be meeting.

Everyday I relive it. Some days I just want to end it. But I can't do anything. I can't report this fucker because I live in a country that will always take the mans side above a foreign girl. And the scandal would be public and my name open for the public to see.

I know this is turning into a rant post, and I'm sorry. But I feel so alone..

Uhh okay, You want the mental asylum. That's the next website on the right.

LuciferLied - April 5, 2017, 6:26 am

Not really sure what to say here. A thing that might help, although expensive, would be therapy. Other than that, unless you live in a middle eastern country ruled by muslims i would highly sugest that you report this to the authorities. If you do live in the middle east don't do as you will most likely be stoned or have your kittycat chopped off.

If revenge is what you seek you might have some luck in trying to contact all his living relatives and share this horrible experience of yours with them and bring into the light what kind of man he really is.

Without directly advocating a violent revenge i will just say that some car batteries contain a diluted mixture of sulfuric acid, that when concentrated will eat away flesh at a horryfying rate and cause unbeliveable pain.

Kayoz - April 5, 2017, 6:27 am

Nothing anybody on here is gonna type will give you the help that you need. Seek a professional therapist if you want to get better.

Good luck :)

Which country do you live in? In the UK the CPS would apply for 'special measures' on your behalf. Rape victims are entitled to witness protection, which can prevent you being identified at court.

Pretty sure the US has the same or similar.

NotoriousMoneyMaker - April 5, 2017, 6:29 am

If you're not trolling you should report it. Get the media's attention. Reporting this to the authorities may actually be better than you think.

LionHeart~ - April 5, 2017, 6:31 am

lol

obvious troll is obvious

M?xim - April 5, 2017, 6:32 am

You are depressed because you are seeking avenge with the help of a security forum. That will sure as hell lead to depression.

The correct way to deal with it is to report it.

Edit: However, you already knew this. You are seeking attention. It is the truth, not gonna hide it.

maddy95 - April 5, 2017, 6:34 am

Honey, i understand how you feel. Stop wasting your time, time will heal everything, but it's not gonna heal his car and house. Destroy his fucking car and burn his house down :)

The Plague Doctor - April 5, 2017, 6:37 am

Just go to the police, hacking somebodies facebook who raped you isn't going to do shit and they won't care lol.

SkullTraill - April 5, 2017, 6:39 am

If you can't beat em, join em. Date rape someone else to vent your anger.

I live in Asia. Sorry if people think I'm trolling. I just wanted to talk to people.. I'm away from my friend and family. My bad for trying to talk.

I don't speak the local language so it's one of things of where the fuck could I even find an English speaking therapist..

Stashyy - April 5, 2017, 6:41 am

Still recommend you report it. I think targeted hacking is something one should only really consider after exhausting all state sponsored options. If you're new to the field and act entirely on raw emotional impulse, you'll only get yourself into trouble.

Would like to see this method implemented. Get that strap-on up his butt!

P3TER P4RKER - April 5, 2017, 10:43 am

I would suggest talking to some one it helps. There are online sessions you could get to talk to someone trained. But im going to tell you this. I was Raped as a kid. Time does not make it better. You just adapt to it like a normal human would. It will always be there waiting to come out. But talking to someone is the only way to keep the rage from going onto people you care about. And knowing why it happened is half the battle.
