Thread: [\[Denied\] All users should be able to see why other users were banned](#)

Currently this is for UB3Rs only but I think everyone should be able to see it.

Why?

In the marketplace I tend to see "limited" or someone banned. I always want to know why that person is banned because in most cases they're on my buddy list in MSN, and I bought something from them or was about to.

Or at least let L33Ts see them too =/

It's a feature that omni decided that only ub3r should have. You'd have to talk to him, but I already know the answer to this.

Nima304 - July 22, 2010, 8:13 am

No. If they're your friend, just ask them. As for Marketplace transactions, it's your own choice if you want to buy from them or not. Honestly, being able to see the bans.php page is one of the big incentives to buy Ub3r. It's not like it's a lot of money, \$30.00 is nothing. And since you're L33T, it's only \$15.00 more.

ALL members are able to see who is banned AFTER they buy Ub3r. Its one of our perks for spending more then you. Just like someone buying a Pontiac compared to someone buying a Porsche. Should the person the paid 1000s less get the same? No

This has been suggested multiple times before and each time it's been denied. So why suggest it again?

Insidific - July 22, 2010, 8:24 am

Why do you need to see why they where banned.

If they're banned then theirs no problem.

If they're limited don't trade.

If you've bought something and their banned. Then it's bought and theirs no problem.

I can't see how seeing why they where banned would make a difference.

I like to see why people are banned because I'm a bit nosey. ?

You shouldn't be buying ub3r just to look at bans, you should be buying it to help the forum...

Virtual Reality - July 22, 2010, 8:31 am

If you want this feature, you will just have to buy UB3R. At least you are contributing to the forum by doing so.

Well thats why you buy Ub3r then :P

I'm just stating reasons against the OP why he doesn't need to see.

Personally I think ub3r shouldn't be able to see it, but it gives people more reason to get ub3r I guess you could say.

There has to be differences between l33t and ub3r. Enough to the point where it's worth getting. If it's just another l33t that could have costed you an extra 20\$ (rounding up from 18\$).

If there wasn't a reasonable amount of perks ub3rs had then it would be pointless. Yes that is a really pointless thing for any of us normal users to see because it's nothing that we could stop. The only thing thats good about it is that we can find people if we seriously need to to figure out why they're banned.

I think that this wont ever be accepted just because ub3rs need it's certain lines of distinction to be different. If Omniscient wanted l33ts to see the bans, he would have done it. I think its a pretty big privilege enough for ub3rs let alone l33ts? Hell no.

I don't support this and any way. I wish you luck on your future suggestions, but not this one sorry. ?
