Thread: [Private XXL 2017 voting bot. Source + setup guide](#)

**About** - April 6, 2017, 3:08 pm

If you are aware of XXL freshmen, you can vote for the rappers to be on the cover for the 2017 XXL freshmen. I have a working voting bot that I wrote myself that can vote about 1 vote a second on a single thread. If you run like 8-10 threads, you can get 28,000-36,000 votes per hour. Leave this running in a day, and surely your artist will win.

This is not a joke, and I can provide proof (very sufficient proof).

This bypasses the 1 vote per 4 hours limit

If there is a rapper you like here, that you want to win, this is for you  
<http://freshman.xxlmag.com/10th-spot/>

I only want to give this to one user, then you can do whatever the fuck you want with it. Hmu

Didn't someone post about this and wanted to buy it for a good amount of money?  
would love this, to derp around

would love this, to derp aroundI've figured it out finally, and I voted for a local artist (with no recognition) about 12,000 times to test it out. all had successful response codes :D

50\$ and I'll sell it to four users. 160\$ and it'll be all yours and only yours

You serious? Just duplicate the request and it succeeds. You don't have to do anything special.
