SIM-2501407 - April 7, 2017, 11:20 pm

Name:

Valor.

Age:

19

Skills:

- Excel Spreadsheets (Taking a certification exam in a few weeks).
- Majoring in finance, Minor in Economics, and am currently a 4.00 student.
- Depending on the subject, being able to write thorough research papers.
- General business skills I suppose; I can sell products on HF.

- I owned my first stock when I was 16 (through a family member's name), and have been interested in that field since.

Monetizing methods:

- Selling BTC (or any crypto-currency).
- Selling products: Checkers, Crackers, eBooks
- Potentially a gold-farm on OSRS, but I have never done one to be honest.
- Method that isn't allowed on HF, so that's of no use to you.

What is your typical income for a day:

When I was last active on HF (took a 2 month vacation ban and just got back) I was making on average... maybe \$40/day - After paying for stickies and whatnot. It was easily \$45+ from BTC a day, and then whatever revenue was made from other sales. I'll be getting a full-time job for the summer, and internet revenue will be just a small bonus to me. I don't plan on spending the money made this time, I'll keep reinvesting it.

Why do you want to join the group?:

Ooh, another shiny user-bar. I'm interested in getting back into the marketplace. I rather avoid the whole eBook skit and go straight into selling some HQ products. Perhaps I will be able to collaborate among with members of Marketers.

Do you trade cryptos?

I used to on a daily basis, but the laws are a bit iffy where I live.

<https://hackforums.net/showthread.php?tid=5266568>

I need to finish this thread sometime:

<https://hackforums.net/showthread.php?tid=5518429>

Just kind of fell off of it.

What do you think about The Marketers:

I have no strong opinion about this group. I was in nightmare a long time ago, so I know a bit about you (Grim), but that's all.

How many hours a day are you online:

(Guessing) On average: 3

If accepted into the group, will you be active in the sub forum:

Yes.

EDIT:

- Must have at least 100 marketplace related positive reputations.

Note: I got RK'd on New Year's Eve, so I may be just a hair short of the 100 as of now. However, I can easily regain those reps lost, and I was able to receive quite a bit back before taking a 2 month vacation ban on 02/05/2017.

Well, that's just great, I received my first marketplace violation today.

Couple things

1. How do you plan to improve the Hackforums marketplace, what's the plan for that?
2. You're a marketers group, but you've slid in the 'improving hackforums in general' so it isn't really marketing based at that point for adding that.
3. How come you needed to state you're very active in the marketplace, wouldn't that be a common sense thing when you see a marketers group member?
4. How are you guys helping others and helping them succeed in selling and marketing?

Refusal - April 9, 2017, 5:13 pm

First off I would like to point out, I hardly ever apply for any usergroups on HF, mainly because its usually all about who makes themselves look good in text on the recruitment thread. I dont care about a userbar, nor do I care about how fancy my application looks. What I do care about is the usergroup Im applying for, and since im mainly an HF user that utilizes the marketplace this group caught my eye. I wouldn't mind being apart of a group filled with users who are just like me in a sense.

Name: James

Age: 21

Skills: Graphics, Selling Products, Flipping Products, Adobe Certified, Investing. I have some more skills, but Im trying to keep it strickly related to marketing.

Monetizing methods: Selling & Flipping Social Handles / Accounts. Currency Exchanging.

What is your typical income for a day: Since I dont have any current running projects, the amount of income I make outside my actual IRL job, here on HF can vary. it just depends on what sales i make.

Why do you want to join the group?: Its simple, Im mainly on HF to participate in the marketplace. I dont really pay much attention to other things outside the marketplace.

Do you trade cryptos? Sometimes, not often, I mainly buy, and sell Bitcoin.

What do you think about The Marketers: The front cover of marketers seems nice, I wouldn't apply if it didnt. I cant form an applicable opinion on the usergroup, without being in it, and knowing whats going on inside, and with the activity.

How many hours a day are you online: Im on, and off HF throughout the day, everyday. I would say I average about 6 hours a day

If accepted into the group, will you be active in the sub forum: I can guarantee you if there is a topic im interested in, i will participate in the discussion of that topic, and if I believe there is something worth sharing to the rest of the group i will.

Do you trade cryptos? Yes

What do you think about The Marketers: Hard to form an opinion without actually being in the group and witnessing the activity for myself

How many hours a day are you online: 3-5 depending on the day

If accepted into the group, will you be active in the sub forum: I will post actively on the topics I can

contribute to

Trojan - April 9, 2017, 8:56 pm

Name: Stinger

Age: I am currently 19 years old but view myself as far more mature. I can hold my ground very well in any conversation with any group of people. Age is simply used to correlate with ones experience/knowledge but I view myself as an exception.

Skills: I find myself very skillful. I am very responsible and take initiative, I don't ever need to be asked twice, chances are I'll have it done before your even ask me the first time. This is always my mindset, I have a goal and I chase it no matter how big or small it is. I am also a team player and know that bigger projects must be done in symphony with other colleagues/partners. I always approach everything with an open mind because I enjoy taking in everyone's input in order to form my own opinion about something. My communication and persuasion skills are excellent allowing me to bond with customers and potential buyers very well. Overall I find myself to be a jack of all trades in terms of skills in the marketing sector.

Monetizing methods: Digital Marketing (Offsite), Poloniex, Onsite Marketing

What is your typical income for a day: My average income equates to around \$150 on a daily basis. I have been slow recently due to the heavy workload I have been receiving from uni

Why do you want to join the group?: I personally feel that Marketers will allow me to expand my knowledge on business with other like minded individuals. I will be able to see how others conduct business and I will be able to provide my input as well.

Do you trade cryptos? I do a fair amount of trading via poloniex on certain cryptos such as XMR, ETH Classic, Dash, PotCoin etc. it varies, I am great at taking advantage of pump and dumps as well as long term investments.

What do you think about The Marketers: The whole concept seems very unique to me. Marketers serves a very specific purpose unlike some other groups on here. A group that is focused on conducting business is exactly where I feel I belong.

How many hours a day are you online: On average I am online 5-8 hours each day

If accepted into the group, will you be active in the sub forum: I will be able to be very active in sub forum. I will definitely be able to release marketing related tutorials etc based on my knowledge and experience. Being able to give our group exclusive content is crucial and I can provide just that.

I am aware that I currently do have a warning level but this is the only part I don't qualify for and it was because of recent mistakes on my behalf. Hopefully you can look past that. Thanks for taking the time to checkout the app, would absolutely love to be a part of the group honestly.

If accepted into the group, will you be active in the sub forum: Yes certainly. I am very active in the group sections.

SIM-1472133 - April 10, 2017, 3:40 pm

I really struggle to see these "marketing" groups to be worthwhile, does anyone have actual marketing experience apart from buying stickies on HF or SEO? Marketing is so much more expansive then HF. I wouldnt call this a marketing group unless it is run by someone that has either a degree or experience in actual marketing.

To be decent you need to be able to offer TV, Radio, Adsense, Telemarketing, postal ads, SEO, promotions and so much more, not just make a product and put it in the premium sellers sector.
