Thread: [Programmers and coders - Unofficial HF group \(discord\)](#)

Mr. Robot - April 8, 2017, 7:56 am

If you are a coder/programmer looking for work or other experiences members to help you - this is where you need to be.

This is a sub room of my current discord that is dedicated to only those with knowledge, sorry to those of you who have basic experiences.

We will help each other with questions, learning and projects as well as help find work and partner up to create awesome stuff to sell.

If you would like to apply for this group - please post below any previous work you have done in the past or PM me a link to a github or portfolio.

Sajuuk - April 8, 2017, 8:53 am

I am an experiences member but not as active as on this board I once was.

NonLeaf - April 8, 2017, 8:55 am

I'd love to join this group as I am attending Computer Science and I want to continue learning new stuff everyday about programming.

Actually sucks that I don't have a good project to show, just small stuff. I've coded an IG OG name Checker if that's a thing

'Axion - April 8, 2017, 10:14 am

I'd like to join but sadly I have no projects to show off with. Most of the things I do never reach the light, but, you can check my posts from the programming section since I normally post some codes too.

ZerFallen - April 8, 2017, 4:56 pm

I can't code past basic HTML, JAVA, and C++, but I would highly recommend you join this group if you want to learn. Mr.Robot is an excellent teacher.

Best of luck.

D?ceived - April 8, 2017, 4:59 pm

I'd like to apply i can code c++, vb.net and some python

Check my account for what I've coded

niro - April 9, 2017, 9:51 pm

Hi, I would like to join the discord. I was the main developer of Kik8 when it first released (Objective-C) and currently I mess around with python. I have built my own bot for Kik and I've somewhat built my own API for it (without using their python module, used XMPP) and that's currently where I stand.

Thanks for the consideration!

FeniksFire - April 13, 2017, 3:14 am

Hey,
I think it's would be cool to be in this group, where I can ask for example, how to make a better test infrastructure and etc.
So I'm one of the current vcmi coders.
forum.vcmi.eu/portal.php (sry for such thing but I can't in other way put links here).
I also do some smaller project before like snake:
dropbox.com/s/s9w0b1ouplg8anh/Screenshot%20from%202016-06-23%2009-55-51.png?dl=0
or cutting sprites program:
heroescommunity.com/viewthread.php3?TID=42984&pagenumber=1 (someone put here english description)
imgur.com/a/2F0lq
and etc. in qt.

Neal Caffrey - October 20, 2017, 1:35 am

I would like to apply for this group, please PM me more information.

DEH333 - October 23, 2017, 2:57 pm

This has been seen.
Now make your choice.

He never asked for an investment. Please read before you post.

I can code in HTML and CSS (kinda) does that admit me on the spot?

Summer Smith - October 24, 2017, 4:36 pm

I would like to join this discord group. I am still in school as CS major and currently taking classes on JAVA and Python. I have made couple of webistes, web scarping app using PHP and an andriod.
Please send me a PM for links to my project.

Divined - October 24, 2017, 9:59 pm

Hey man I'd definitely be down to join that room and not any other forum out there.

LastSession - October 25, 2017, 8:48 pm

Does your group require investments? In case it doesn't, please PM me.

Enzio - October 25, 2017, 9:03 pm
