Earning from Youtube with Shitty Content

I am gonna share an very informative guide with you which I am writing my self, today we are going to learn how to ACTUALLY earn money from YouTube with Traffic Exchange.

What is Traffic Exchange ?

A traffic exchange is a type of website which provides a service for webmasters in exchange for traffic. It is similar to the autosurf concept with the exception that traffic exchanges usually use a manual rotation.

The method doesn't require you to post Quality videos, you can upload a video of your cat and still earn money.

HOW TO-

First of all you need to create a YouTube channel , if u don't know how to do that then sorry leave now and u are way too DUMB to use this, for the other side of people (average intelligence one) continue reading

After you have made a Youtube channel , you need to upload videos to it , you can upload any stuff as long as it's not copyright, usually I would prefer uploading your own gameplay videos, u don't need a powerful for that just record some gameplay of online Flash games.

Upload a tleast 10 total videos of 10 min of Length each.

After you have done that you need to register at Traffic Exchange Sites, there are many Traffic Exchange sites but I mainly prefer Websyndic as you can hide referrer which will be useful.

Make an account at Websyndic or any Traffic Exchange and run their bot , how traffic exchange sites work is that u receive hit for a hit. The bot runs on your PC and automatically visits sites of other's . Earn some points by running the bot and we will be needing those to send HITS on our videos.

Paste the links of your videos on the Traffic Exchange site you are using , Remember to HIDE refer so that youtube doesn't come to know that you are using T:E sites"

Buy some fake subs or use those sub-exchange sites (this part is required) , you need at least 1000 SUBS.

Now you need to apply with Partnership networks like BBTv AND FULLSCREEN

Req- 10k Views (use T:E sites as I have taught you)

Subs - 1000 subs atleast (BUY THEM OR SUB EXCHANGE THEM)

If u fullfill these requirements you will be accepted by the networks .

DONT USE ADSENSE AS YOU WILL BE CAUGHT BOTTING VIEWS, only parther with Networks, they will take 30% of your earnings but you are safe from getting caught by youtube.

Method works as I have personally used it , trust me it will reward you for your work.

I am completely new to this site and these methods. This is the first method I have seen so far that seems worth my time so thanks for sharing!

mekro - April 8, 2017, 5:56 pm

how do i hide the refer ?

201 - April 8, 2017, 6:15 pm

thanks for the share OP, but like mekro said, how do i hide the refer link?

Graphica - April 8, 2017, 6:18 pm

Yeah might have to do this

iHercules - April 8, 2017, 6:21 pm

Depends on which T:E you are using. In websyndic there is a checkbox "Random Referrer" tick that.

mekro - April 14, 2017, 7:43 am

I've experimented with it and it works, although I'd advise maybe running 2-3 viewers on different RDPs to get the opportunity to get more views because it's a slow process.

mekro - April 16, 2017, 10:33 pm

i'm giving this a go getting like 800 views in 2-3 days no investment im trying to enter a network so i can get some cash to buy views i guess dunno how i should play it out

PYTHONC0DER - April 17, 2017, 4:08 am

Nice thread! Well done. To much time spent on it?

marvwebster - April 17, 2017, 4:30 am

99% of the Youtube partner networks are shitty and there`s a 99,99% chance of being banned from the Youtube partnership program.

It`s better to use Youtube for CPA and Clickbank videos.

kue92 - April 17, 2017, 9:45 am

so i have to get 10k views each month? or just the first time to apply for the partnership?

Mastahbruce - May 2, 2017, 10:42 am

does this still work? i might try this soon

valentjoh - May 5, 2017, 6:54 am

Thanks for sharing this. Will give it a try.

GreenStuff - May 5, 2017, 7:36 am

This is cool, I put a little twist on this and made it work more efficiently

Gambia - May 6, 2017, 9:17 pm

So do you actually get banned or what? I thought joining a network will help prevent any bans.

divino2017 - May 7, 2017, 2:32 am

this method is not working anymore, search on other forum, this has been old method. anyway you can try it if you want, for me based on my experiences it's not working anymore and getting banned only. :-(

mekro - May 10, 2017, 5:41 am

OtakuMateTV - May 19, 2017, 6:40 am
