Thread: [Premium Tools and Program Threads](#)

Omniscient - April 8, 2017, 8:10 pm

A new subforum of PSS (Premium Sellers Section) has been created called "Premium Tools and Programs."

[Premium Tools and Programs](#)

The intent is to have a place not flooded by services or ebooks and give sellers of actual programs their own sellers section. Hopefully this will be more organized.

If you have an existing PSS thread you wish moved to PTP please contact anyone on Staff or myself via PM with a simple request that includes the thread link and [PTP Move Request](#) as the subject. I will move the thread asap.

Anyone wishing a sticky in the section can also PM me. It will initially be \$30 per week but of course is subject to change depending on demand.

Hope this new section makes the many members unhappy with the flood of ebooks in PSS very happy. I did this for you. Enjoy.

debug - April 8, 2017, 8:11 pm

This is a great idea. Thanks Omni/Shock.

Sho?kwave - April 8, 2017, 8:23 pm

Thank you for taking my suggestion into effect (though it sounded like you where going to do this regardless).

Much appreciated.

HeyBuddy - April 8, 2017, 8:26 pm

Smart Decision. This will help the market a LOT. People who aren't upgraded will still be able to sell and those not upgraded will not have the same market to sell to as being upgraded. Driving incentive to upgrade, and keeping all the sales more organized. IMO you should also make premium Services.

ra1d - April 8, 2017, 8:27 pm

This is an awesome initiative.

The premium sellers section is pretty cluttered, this definitely helps a lot.

SIM-1847363 - April 8, 2017, 8:27 pm

Can't wait to see the threads in this section. I would have loved to see Netseal here. :c

SUI-3183372 - April 8, 2017, 8:33 pm

This is a good compromise, I'm happy with it.

I always wanted to see E-Books out of the PSS, but this works just as well.

Thank you.

?now - April 8, 2017, 8:36 pm

Oh sick. Glad to see this coming to hf nice idea shock!

Meterpreter - April 8, 2017, 8:39 pm

Awesome idea. Very hard to find quality products within the never ending abundance of (majority useless) ebooks.

M?xim - April 8, 2017, 9:02 pm

Nice, really cool addition to the marketplace.

Leroy Jethro Gibbs - April 8, 2017, 9:02 pm

Thanks for this. I honestly stopped considering the marketplace all together unless I really needed something just because of all the ebooks.

Aevum - April 8, 2017, 9:05 pm

Finally, a separate section.

Thank you

Bluffer - April 8, 2017, 9:11 pm

Very nice to see this new section. Great job omni.

Hyperhactive - April 8, 2017, 9:27 pm

This is a great thing, thank you ?

eCoLoGy - April 8, 2017, 9:39 pm

This is a really great idea.

Glad you did this Omni. ?

The GRim - April 8, 2017, 9:40 pm

Can you please prohibit ebook/method sellers from posting in the PSS too. Let them all post in the ebook section.

poisson - April 8, 2017, 9:46 pm

Awesome. I really do think it will make the marketplace better. Did my suggestion thread help at all?

Ombra - April 9, 2017, 11:18 am

Good job Omni, I think this was a necessary split and it will help many coders / software sellers to have their own dedicated space.

Gørilla - April 9, 2017, 8:01 pm

The best marketplace addition in a while.

ZuGgY - April 10, 2017, 9:37 am

Yes, great idea. I love organization.

Thanks for the update.

Eagle 95 - April 10, 2017, 11:41 pm

Feel free to message us instead of Omniscient for a thread move.

Cheers.

NurSpec - April 11, 2017, 10:57 am

A very nice update, makes a lot of positive impact imo.

Confound - April 11, 2017, 5:38 pm

Solid change and thanks for the update.

Major League - April 11, 2017, 6:21 pm

Awesome. So happy to see more organization of the market. Also happy to see a forum owner who listens to its users.

#Exploit - April 13, 2017, 2:38 pm

Very nice , now the market section is more clear than before. Thank you Omni !

Weco - April 13, 2017, 5:33 pm

Thanks you, thats an awesome new forum!

Lambasoft - April 25, 2017, 5:01 pm

The change is awesome, I was going to ask you to do this!

One last thing would be great, if you could switch the "Premium Tools and Programs" s the default one ? So users see it when the click on [Premium Sellers Section](#)
