What do you mean by abuse of service? Also does it allow RATING other people.

Hecate - June 10, 2017, 9:19 am

What is difference from using FREE DNS and this DNS ?

And how this can be bulletproof ?, if peoples will want to take down they will ping dns and get your real ip address.

We do not seem to have had any issues at the time you posted this. Are you still having trouble

accessing Punk DNS?

I have no problem accessing punkdns website, my created dns pointed to a specific server are not resolving, the server i pointed the dns to works fine, but the created dns does not work and does not resolve to the IP.

Error it shows says (Could not resolve the host).

Please how to fix this issue or was my dns banned?

Hi Please explain me your Point Its not really clear

Thank u

ARIANA - April 7, 2018, 1:38 pm

So this allows me to create custom domains but only people who use your DNS service can use these, right?
