Thread: [What would you like to see in a Net Seal alternative?](#)

SIM-3323508 - April 9, 2017, 11:44 am

Title kind of says it all, I will start by saying it will be web based for the client and user manager opposed to the aspect of using a downloadable client.

I don't know if I will have a 1 time program fee or a slots set up like net seal did.

Just let me know what you guys want!

?heshire - April 9, 2017, 11:45 am

Excited to see what all comes up on the market now that net seal is out of the running. Look forward to seeing what you put out

tuNNelZ - April 9, 2017, 11:46 am

What do you mean what do you guys want?

Wich perspective. The customer, or the seller/owner of the product.

Classic™ - April 9, 2017, 11:46 am

I wanna see NetSeal in a NetSeal alternative. :C

SIM-3323508 - April 9, 2017, 11:47 am

Wich perspective. The customer, or the seller/owner of the product.

Everything. As a customer what did you like and what didn't you like? As a seller what did you like?

tuNNelZ - April 9, 2017, 11:55 am

Hmm, i cant tell you directly here. but ill give you a bible long book in skype. PM me if you got one

Orgy - April 9, 2017, 11:56 am

dont you worry mate ones already in progress

tuNNelZ - April 9, 2017, 11:58 am

Im waiting on yours. Wanna see it.

SUI-3183372 - April 9, 2017, 1:28 pm

Have already seen Orgy working on one pretty diligently. Not sure if there will be room for a second one.

Therm?!l - April 9, 2017, 1:42 pm

I'd really like to see an option to donate to bandors. I feel like it would really improve any license system due to bandors being the supreme leader of HF

Someone's mad they don't get to travel with bandors and play with the elephants

Rhez - April 9, 2017, 6:16 pm

I don't think someone can replace Net Seal. There's already many attempt on competing but failed. Anyway, good luck and we hope you the best. ?

Because no one wanted to move away from a tried and true solution.

Now that solution is gone.

Now that solution is gone.

And now someone has to say: We have it!

@Orgy wish you the best of luck with this.

EagleEye - April 10, 2017, 11:20 pm

I am working on a big update it must go online on 28 May, version 2 of 961API

What's the estimated release date? Also, would it be integrated with Rocketr like Net Seal?

Just my assumption but I would bet it will be a branch of rocketr.
