This is of course written strictly within the book itself and should already be clear to all buyers. Thanks for the headsup regardless ?

I bought the lightning package and I am very impressed. This gives you very unique content and the setup is easy plus the autopilot methods are crazy good. I had a big focus on 07 spreading though and the method this includes is spot on. Vouch from me if it means anything

**Fortunate** - April 11, 2017, 12:51 pm

Hey I have a question, would you mind PM'ing me mate.

**SIM-2501407** - April 12, 2017, 7:50 pm

A lot of 'black hat' material has been removed or disallowed on HF for awhile, so I am actually a bit

surprised that this is allowed on HF.

This looks really nice though; that's a really good thread design.

Good luck with sales & my bad for ranting a bit off topic, haha.

**Trojan** - April 13, 2017, 7:32 am

All pm's have been responded too! Wow our customers have been infecting slaves well over the rate I was assuming. Great stuff!

**Papa Cuda** - April 13, 2017, 2:30 pm

Might want to center the TD mate. I don't know if it's just me or what.

**MiLkBoNe** - April 13, 2017, 3:16 pm

Very useful! Thanks for this.

**Major League** - April 14, 2017, 7:34 am

Holy shit, I took the time to read this method and if your NET doesn't grow using this then you either don't know how to read or are just plain stupid. If you're looking for a guide on spreading look no further.

**Trojan** - April 14, 2017, 5:55 pm
