Thread: [Stoped sales](#)

Aquatico - April 10, 2017, 12:10 am

Stoped sales. Moved to other crypter.

Friedrich Nietzsche - April 10, 2017, 5:02 pm

The real jabber I know is packer@crypt.am and broadsupport@jabber.ru
I wouldn't trust packer@crypt.mn unless confirmed by TOW himself.

I see TOW repped him, most likely legitimate then.

c0rle0ne - April 19, 2017, 1:19 am

It's valid as none but ToW will be able to provide any license. And as for the crypter itself ... if you have the money then don't even give a second thought. This is undoubtedly the best crypter around. Worth every single penny.

Malicious007 - April 21, 2017, 3:33 am

anybody know why <http://broad-product.biz/> is down ?

Friedrich Nietzsche - April 21, 2017, 3:38 am

link please !

Friedrich Nietzsche - April 21, 2017, 5:53 am

(Apr 21, 2017 03:45 AM)malicious007 Wrote: [\[CITE\]](#) link please !
I talked with him on jabber. Can't really post link.

Aquatico - April 30, 2017, 4:25 am

We are back with the forum and jabber is corrected.

The Old Warrior - July 3, 2017, 7:19 pm

Version 2.9.6

- Packer: Added Multi section adder. (Only last section in the list is removable)
- Packer: Added FixBaseOfCode
- Packer: Added FixBaseOfData
- Packer: Added FixSizeOfCode
- Packer: Added FixSizeOfInitializedData
- Packer: Added Fix Data Section.
- Packer: Fixed Resource encryption bug where it crashes on some type of files with CUSTOM resource type.
- Packer: Fixed Minor/Major Linker version bug.
- Packer: Fixed a resource handling bug.

- Packer: Fixed File Pumper.
- Packer: Added Randomize EntryPoint
- Crypter:Packer: Added settings load (Drag and drop on the application the .ini file)
- Crypter:Packer: Added startup folder name option.
- Crypter:Packer: Added conditional branches to the code blocks.
- Crypter/Packer: Faster building when Anti Sonar option is on.
- Crypter/Packer: Fixed some memory leaks.
- Crypter/Packer: Fixed scanner bugs where it only shows few antiviruses. Default scanner timeout before parsing result is ~25 seconds.
this is not an application fault sometimes the website takes long time to give result back as some antiviruses might be slow or down,
now if that is the case then the result will be parsed after the timeout elapsed.

Pricing plan have changed as-well as Packer is now open for public sale at low price.
Price will be update on the first post When Aquatico gets online.

I may give 24h trial for packer if they can guarantee a detailed feedback.

Preview: <https://i.imgur.com/3gobcM8.png>
Please Report any bugs you may FIND!

Best Regards,
The Old Warrior

The Old Warrior - July 5, 2017, 3:37 pm

Please contact @Aquatico for the trial. ^^

Aquatico - July 5, 2017, 4:11 pm

Packer has been tested with netwire,#,bb and various other bots.
No .net currently for packer.

Juicers27 - July 6, 2017, 1:03 am

hey come on jabber watining for you

Flacon - July 8, 2017, 3:30 pm

no more needed never got it :P was just a eye catcher.

Aquatico - July 23, 2017, 3:18 pm

Version 2.9.7

- Crypter/Packer: Added melt option on startup.
- Crypter/Packer: Fixed settings loading bug.
- Crypter/Packer: Improved Anti Memory Scan.
- Crypter/Packer: Fixed some crash on output files.
- Crypter/Pacer: Added Anti IAT/EAT hooks (Kernel32.dll) (always on)
- Crypter: Fixed one startup bug with binder.
- Crypter: Binder now supports all file types. (Exe files are automatically executed in memory. Other file types might be detected)

- Packer: Added support for .NET files.
- Packer: Added Anti .NET dumpers (Always on)
- Some minor gui fixes.

Please report any bugs you may find!

Malicious Intent - July 23, 2017, 11:32 pm

Posting to come back .. interesting.

Aquatico - July 25, 2017, 6:54 am

Version 2.9.8

- Crypter/Packer: Improvements on startup function.

Aquatico - August 13, 2017, 3:40 pm

Version 2.9.9

- Cryter/Packer: Improvments on the range of code randomizer.
- Crypter: Possiblity to choose running option in binder.
- Crypter: Fixed bug of drag and drop on binder.

NoTail - August 13, 2017, 10:53 pm

do you provide trial?

thanks

??I?????? - September 10, 2017, 7:49 pm

Broad the best of all time

Prawnster - September 17, 2017, 5:36 pm

Nice to see you guys selling around here, now I can suggest Broad instead of just telling people to avoid nearly all crypters on HF lol
GLWS.

narc0tic - September 18, 2017, 9:03 am

Do you unhook the functions you are going to use or preform syscalls?

glws.

Aquatico - September 23, 2017, 11:58 am

Version 2.9.9

- Cryter/Packer: Improvments on the range of code randomizer.
- Crypter: Possiblity to choose running option in binder.
- Crypter: Fixed bug of drag and drop on binder.

drillBYTE - September 23, 2017, 12:14 pm

The difference between this and all the other crypters on here?

Aquatico - September 26, 2017, 3:56 am

Code Startup updated for Avast IDP detection.

(Sep 23, 2017 12:14 PM)drillBYTE Wrote: [\[CITE\]](#) The difference between this and all the other crypters on here?

Well, we have a limit of 20 costumers. And we really bypass all proactives+endpoints. This of course if you dont use outdated bots that use detected startups, copy paste injection and EOF.

We are on the scene since 2013.

s??l?s? - September 26, 2017, 2:07 pm

<https://hackforums.net/showthread.php?tid=5110847>

Hey for a trial, i can give u a detail feedback with all avs runtime video results.

Just let me know if you need this.

And me and my friends are interested in buying this if results are good.

Aquatico - September 29, 2017, 3:44 pm

<https://www.youtube.com/watch?v=D2kUskJAAS4>

TrendMicro +Netwire bypass.

Aquatico - October 8, 2017, 4:52 am

8 Oct: Fixed startup for MSE detection.

Tsukiri - October 8, 2017, 4:53 am

Best crypter I've ever used, huge vouch for TOW and Aquatico!

Aquatico - October 8, 2017, 6:11 am

(Oct 8, 2017 04:53 AM)Tsukiri Wrote: [\[CITE\]](#) Best crypter I've ever used, huge vouch for TOW and Aquatico! Hope you'll be long time with us!?

blackvudu1 - October 15, 2017, 5:38 pm

Very interesting product, how long before updates are release ? What is the guarantee of having an FUD for one month if am paying \$500, paying \$100 to ask for assistance after buying is rather high... Very interested in this but need to be sure before spending and it happens to just be another good advert...

kauf - October 15, 2017, 9:56 pm

The post said 1 Month FUD, so single crypt is 1 Month FUD without detection? and is this FUD both scantime and runtime on first crypt not to talk of the 1 Month FUD which i doubted

yunnus - October 25, 2017, 12:55 am

@Aquatico - I added you on jabber few days ago.

Please respond.

Aquatico - October 25, 2017, 4:06 am

(Oct 25, 2017 12:55 AM)yunnus Wrote: [\[CITE\]](#) @Aquatico - I added you on jabber few days ago. Please respond.

I did accept everyone. Update stub can last 1 month if you use it only for updating bots and spread stub only for spreading.

Lextian - October 29, 2017, 11:49 am

Interested in this tool, shoot me a pm to deal, Thanks.

Aquatico - November 4, 2017, 10:35 am

(Oct 29, 2017 11:49 AM)Lextian Wrote: [CITE](#) Interested in this tool, shoot me a pm to deal, Thanks.
Yea sure, whats your jabber? Prices are in thread.

blackdark22 - November 6, 2017, 1:43 am

contact me on jabber to discuss this tool. darkblack@exploit.im

Aquatico - November 19, 2017, 2:21 pm

Added you . PS: Loki is outdated if its not v2.

friendly8899 - November 24, 2017, 7:01 am

Does this work with netwire without disabling some settings?

Aquatico - November 26, 2017, 11:29 am

You have to disable startup which is detected.

jkr500 - December 15, 2017, 1:49 pm

Are you still selling this? Your image is not working on the 1st page

Meeting - December 16, 2017, 1:01 am

You simply can't get anything better than that with the packer now, were blessed someone offers this kinda service.

I bet with his experience he does reverse engineering to the freaking antiviruses and that's why he owns the crypting game.

Aquatico - December 19, 2017, 1:59 pm

Haha thanks. Atm packer sales paused due to complexity of explaining how settings work. Only people who know how to use it can buy now.

Delphi 6 stubs 400 a month

Cpp 10 stubs 1k a month. If you think prices charged for a private crypt, prices are fair.

yunnus - February 5, 2018, 4:54 am

Aquatico

Added you on jabber.

I want to buy CPP.

24break - February 15, 2018, 12:47 pm

post the prices for the crypt
