Thread: [Can I ask for payed shoutouts on my instagram.](#)

Sevenply - April 10, 2017, 10:22 am

So I own the instagram @supremeurope and we get around 90 likes and 12 comments on every post.

Can I ask for payed shoutouts or should I have more followers.

Thanks.

As far as I know its not against any marketplace rules, its more of a matter of if anyone will purchase, which isn't relevant to the rules. Correct me if im wrong

What do you mean can you ask for paid shoutouts? Do you wish to sell shoutouts off of your account or are you asking if you can buy a shoutout for your account? Either or, you should be fine. However, 90 likes and 12 comments isn't enough if you wish to make any type of stable income. There are shoutouts from accounts in the millions of followers going for \$20+.
