I want to grind some Agility, does anyone want to come chat via a stream or smth?

21m Rs3, level 70 second account. Might go for 350m on GrinderScape, I have 150m

To make agility fun, hop on discord with people or chat with people else where, or just watch movies on the side. It gets to the point of mindless clicking like 30 minutes in. At least for me it's like that.

My trick to agility play on a 2nd account use osbuddy (makes agility easier when you look back as it will have big green blobs that you need to click)
