Thread: [Osu Tablet \(Wacom 480\)](#)

Yukino - April 11, 2017, 3:06 pm

I'm looking to buy a CTL-480 Tablet.

<https://www.amazon.com/Wacom-Intuos-Tablet-CTL480-Version/dp/B00EN27TCI>. This one is currently backordered if you click to see "other sellers"

Anybody wanna do some research for a good website to buy from?

Last I heard on the osu! forum, the 480 was discontinued so you might have to go used through ebay.

You can also look into the xp pen g430, gaomon s56k, and various other wacom models.

I appreciate the support with my last thread too.
