Thread: [\[FREE\] 1 month membership method.](#)

Elmo. - April 11, 2017, 3:29 pm

Just used this myself and works like a charm, thought i'd let everyone who doesn't already know about this. There is now an event going on where Twitch Prime members gets 1 month of membership, free of charge.

1) Sign up for free Amazon Prime trial [here.](#)

Make sure that you put your address that is from countries. (United States, Canada, United Kingdom, France, Germany, Spain, and Italy.)

2) Sign up for free Twitch Prime via Amazon Prime (Requires a vpn of any kind that has any of listed countries above.)

3) Go to <https://www.twitch.tv/directory> and you'll see this offer on your left corner:

4) Now apply the code on your account [here.](#)

EDIT: [justsum1uknow](#) linked us a video that shows you a method to do this without a credit card.

Wow, had no idea the Twitch Prime thing existed. I've had Amazon Prime for like 3 years now, so getting more free shit is always nice.

Slim - April 11, 2017, 10:35 pm

Thank you. Redeemed just fine. FYI You can't stack codes on an account (sadly :/)

Gummy Bear - April 12, 2017, 1:25 am

This is really nice, I actually have Prime and had it on my Twitch from the start the games and free stuff is nice, it's awesome they have RS3 stuff now.

YERANUK - April 12, 2017, 2:06 am

Do multiple codes work on the same runescape account?

So that each time you redeem it you get +1 month, +15 th key, +200 runecoins?

You're welcome guys :)

I just tried getting prime with the same Amazon account, it somehow says that it succeeded but the code is still the same so don't bother.

I'm 17, I don't buy stuff online, if I do it's stuff from my country where I can easily use my bank account, I've only needed a credit card for 2 things: OSB Pro and Amazon Prime.

Also it's kindergarten.

You can't get past it, Twitch Prime requires Amazon to have a phone number attached.

What you could do is look into online SMS receivers, most are blacklisted and already in use though.

Goat - April 14, 2017, 3:24 am

Damn,

We don't have amazon prime where I live so I don't know how I'll get this to work.

If someone is kind enough to help me out then send me a PM! <3

k9thebeast - April 14, 2017, 5:45 pm

Can anyone confirm the german method works? Haven't gotten it to work for myself yet.

Getting this too, maybe you can't get twitch prime with amazon prime TRIAL anymore.

Anyone know how long the codes last for before they expire?

(Apr 16, 2017 04:26 PM)Onyx_ Wrote: [\[CITE\]](#) Anyone know how long the codes last for before they expire?

Around 20 days or a bit more. Don't remember the exact day.

Jaatinen - April 17, 2017, 3:52 am

The video version worked for me, but there is the site that gives BIC and IBAN codes. The site ain't working no more. Could you link me another site for it? My friend would gladly take the membership also :P

Slim - April 17, 2017, 12:06 pm

I've confirmed it. You can still link twitch accounts for paying prime members. It's the prime trials that don't work. In other words, this rules out the fact that new twitch accounts are getting blocked from doing this.

Elite Hacker 69 - April 17, 2017, 12:49 pm

Can I do this if I already had prime once?

Containment - April 17, 2017, 11:18 pm

IT WORKED TY OP GIVING REP ILY

tibi1987 - April 18, 2017, 3:43 pm

GMBros - April 18, 2017, 4:25 pm

tibi1987 - April 19, 2017, 11:19 am

SecurityCult - April 19, 2017, 11:27 am

Thanks for this bro worked perfect for me you can also use a super old Visa giftcard that has \$0 just worked for me like that

Elite Hacker 69 - April 19, 2017, 7:17 pm

This is cool. If anyone else was wondering if you can do it if you already had prime, you can.

Mafty Navue Erin - April 19, 2017, 7:23 pm

I was fine with doing this until it asked for my phone number. I tried using temp numbers but I would not receive a text. For obvious reasons I don't want to use my personal number. If anyone could hook me up with a code that'd be real cool.

¹³³⁷ - April 19, 2017, 9:00 pm

Worked perfectly fine, thanks man

I used my personal one, there's really no issue with it as far as I know.
