Oh man I almost forgot about Plastic Memories lol. Sad indeed.

Try:

Must

- Grave of the fireflies (watch Nausicaa while you're at it)
- AnoHana (must, too much onions)
- Colorful
- Hotarubi no Mori
- Tokyo Magnitude 8.0 (eh, i still cried) shows siblings struggling together after an earthquake
- Clannad After Story
- The Girl who Leapt through time

If you got time

- 5 centimeters per second
- Guilty Crown (semi-sad ending)
- Mirai Nikki (first anime that made me cry, but more of action and thriller tho)

If you want something to make you tear up, Elfen Lied will definitely do the job.
