3. last year

4. i like the the fancyness of the site :3

Elitas - April 13, 2017, 5:53 am

I'm not gonna answer 1 or 2 because I like to distance HF from my real life, hoping that isn't an issue as I don't see it being hugely relevant to csgoarena feedback, but it is your contest, so your choice.

Btw you'd get more entries if this were in the 'Member Contests' section!

3. 1 month ago xD

4. A suggestion I'd give to all cs:go betting websites, is to allow the skins be transferred to cash, and then allow people to play poker with the cash against other players. Granted, I doubt your website will have the activity for that just yet, but maybe if you added it in, it might encourage more activity. Say, a tournament everyday at the same time!
