Thread: [Negev back in competitive?](#)

Saltpeter - April 12, 2017, 6:29 pm

I just played my first match since it was added back and it was madness. The only gun used after the pistol round was the Negev. I'm not sure how long it has been like this but it really needs to change. Also the only pistol anyone bought was the R8 unsurprisingly. It honestly feels like this is a late April fools from Valve. What do you all think about the rebalancing of those two beloved pieces of weaponry?

For anyone that isn't aware, as I'm typing this message the new Negev is \$2000 to buy in competitive.

This game will be ruined until this gets changed.

Mr_Crunch - April 12, 2017, 6:52 pm

Wtf? 2000\$ really?? less than an m4 price...

It's almost like the guy at Valve that makes decisions in regards to weapons is a literal autistic person.

I'm just going to take a break until Valve fixes this. Happened to me two games in a row.

hav0k - April 12, 2017, 8:53 pm

Negev is trash though, takes 12 shots just to get the laser beam.

Critique - April 12, 2017, 9:31 pm

It's stupid.

I liked it better without it.

JUSTIN - April 12, 2017, 10:18 pm

I seriously thought people were joking when they told me it was \$2k now. MM is going to be a meme for the next week.

SIM-2212192 - April 12, 2017, 11:54 pm

i dont think valve really ever plays the game they just jack off and play dota2 tbh

E1NH4ND3R - April 13, 2017, 12:59 am

2000\$ for a Negev. Valve Is a meme. I haven't played yet since the update

Vobz - April 13, 2017, 1:03 am

MM is complete aids at the moment

webdev77 - April 13, 2017, 5:24 am

Hope you all realize it was priced at \$2k for experimentation purposes, not a permanent solution.

SocialAgency - April 13, 2017, 5:26 am

Thank god I don't play this game anymore.

Seems like this update will be a success like the revolver update. ??

Yes, I realize it will be changed. It didn't have to come back into the game cheaper than a P90 though. People would have used it at \$4000 too.

Oh and the revolver is now \$700 so you can buy it on the pistol round.

I remember when it came out. Revolver > buyround

Always oneshot ?

CSGO is a mess

Corrupt3d - April 13, 2017, 5:41 am

wtf i thought this was a joke

but nope its real

they should fix the game instead of adding cases that feed gabens belly

Acorns - April 13, 2017, 6:56 am

the update is fine tbh, negev is shit cause takes too long to get going and its lost its thing that made it viable with the tapping, and revolver is meh still a tad slow

Try right clicking for fast firing on the revolver. It's almost as fast as the desert eagle but more accurate when fast firing.

i still think its too inaccurate to be used for the right click especially at the higher ranks (supreme +)

tuNNelZ - April 13, 2017, 7:20 am

Your like a tank, you can never move dude xd.

imnotdex - April 13, 2017, 7:40 am

2k for a negev + 300 for a smoke = op

creki - April 13, 2017, 8:07 am

People who say that the negev is OP and for 2000 only are not that good at the game, its super inaccurate the first 5 seconds so you have plenty of time to kill the guy before it gets deadly.

And while the weapon is in laser mode just don't peek it.

anue - April 13, 2017, 8:09 am

the negev is gonna be the new eco gun

Not at all unless you are using it wrong. The revolver is meant to be somewhat slow but accurate. It's a one shot headshot and two shots to the body.

Loot Lake - April 13, 2017, 11:00 am

Negev only going to be a problem in low ranked games because if you try to step out with a negev and miss first 5 bullets in a higher ranked game, you would be dead.
