Thread: [Possibly Scammer 300\\$ BTC by x2NaTe2x \[UID = 2303490\] | BTC to PP CE](#)

**MouseOnCocaine** - April 13, 2017, 12:12 am

We agreed upon a deal of ~\$300 BTC for \$340 PP. The deal was officially made at 11 am and as soon as I sent the payment he went offline for 7 hours, saying he had uni and that he was home. Then proceeded to do nothing for the rest of the day and even though he was online HF.

I sent him multiple messages after that about my concern, he was online to read them but did not respond.

Thank god that was only my rent money, and that I can't use the trust scan anymore for some reason.

UPDATE:

Responded with yes sir when I asked him to refund the BTC or pay with PP. Hopefully it's not to waste my time.

This user now has multiple open scam reports.

Looking grim, hoping its just a big misunderstanding and you get it sorted.

Feel free to contact me in reference to dox if he doesn't send your funds.

FYI Trust Scan feature is only available for Ep1c and Ub3rs as of a couple weeks ago.

It looks like he did a bunch of small insignificant trades and then scams when people do big trades with him.

If he actually cared about his exchange service he wouldn't ignore two of his clients for two days. Even if his intention isn't to scam, I was still forced to borrow money to pay my rent because of him which basically spoils the service.

I had called him out on his scam report a while back on his currency exchange thread and he got mad and false neg repped me. Low quality member.
