Nothing is happening, relax. WW3 is not going to start anytime soon. And if it does, you can all laugh at me, I won't care. I'll be dead most likely.

WRX - April 13, 2017, 10:50 am

Damn who got the 25 kill streak? 24 if you're using specialist like a noob.

Trump didn't. So in before Trump haters say he ordered it. John Nicholson and Joseph Votel are the two generals who gave the approval.

Idk. That's what everyone assumes is happening when Trump does something.

What were you implying?

Blatngu® - April 13, 2017, 11:57 am

I think he was making a joke there. Though I'm not quite sure.

In terms of payload, however, there are bigger bombs available - at least by the Russians.

Lauren Southern - April 13, 2017, 2:08 pm

Lay the hate. That's what they get for killing a green beret.

Can't wait to see blast photos. Word is we are going to be using a lot more very soon.

Alex DeLarge - April 13, 2017, 2:15 pm

He hit only one of our own soldiers & no civilians.

He dropped it because liberals would cry if he dropped nuclear weapons we actually have nuclear weapons with smaller blast radius than this. It was to destroy Isis tunnels.

WTF I LOVE ISIS NOW - StorK.

ThatOneDeveloper - April 14, 2017, 11:21 am

loleren1990 - April 14, 2017, 12:23 pm
