Yeah? These are about as tall as my dick.

I should dedicate a shelf to more figurines. I feel like the size of MGs will make themselves look obnoxious as decoration on my desk.

Btw, I passed both tests. Taking the last 2 tests next Tuesday.

Yes MG's really aren't for desktop environments
I put mine on my big shelf

Saltpeter - April 13, 2017, 7:54 pm

They look great to keep on top of a desktop. Good luck with your GED man.
