Thread: [Botnet for brute force](#)

frank0957 - April 13, 2017, 10:51 pm

Hi dudes,

Any good botnet for brute force with c&c. Or rental services?

Daw'D - April 14, 2017, 1:07 am

I really dont think the problem is where and how to get it bruteforce, i think its where to get the best exploit to get result from it is what matters.

maldev0 - April 14, 2017, 5:56 am

You mean like splitting up the brute process, each bot will get a unique part to brute if I get you right. What exactly you want to bruteforce?

Kind regards

Exactly what I want, but I'm not sure how config bots to handling brute process.

Just test on website for internal purpose
