Thread: [\[E-book\] Cheaters Always Prosper - 50 Ways to Beat the System Without Getting Caught](#)

Lelouch Vi Britannia - April 14, 2017, 12:37 am

I recently came across this e-book on my drive and i thought some of you might enjoy it (note i am not the writer).

Introduction: This book was written with the encouragement of some of my friends who have always turned to me when they needed advice on getting out of something, into something, making easy money, and other such miracles. I wrote this book for all the people out there who play by the rules and wonder why other people get ahead. In short, rules were made to be broken. One needs to stand back and look at the system once in a while and see how it really works. That is, look at the under-the-table arrangements, the payoffs, the you- scratch-my-back-and-I'll- scratch-yours deals and the blatant ripoffs that are part and parcel of our society.

Please note that the tricks, scams, and cons presented here are for informational and entertainment purposes only. It is not the author's or publisher's intent that the reader use this book as a manual for illicit acts.

This book was written to entertain and inform readers, not to persuade them to commit an illegal act. Please read this book with this proper reference in mind. Neither the author nor the publisher wish to be responsible for the personal or corporate suffering of anyone.

PM me with the title cheaters always win to receive!
