Thread: [Retweeting tweets with 40K real active follower twitter](#)

Fortunes - April 14, 2017, 2:42 am

I will be retweeting one tweet per upgraded user
Depending on the time of the day the account will pull high/lower numbers
Works best around 4-6PM any timezone

I pull about 200+ likes per tweet I make on the accounts and every tweet that I retweet pulls about 50+ likes along with some decent retweets

These are all real people not a single bot

Please PM me with your tweet link

For best results link me to a vibe tweet or something that people can relate to

Tried reaching out to this user but simply ignoring his PMs. Not sure if he's offering this anymore
