I'm starting a shop to mod peoples gamerscore for certain games

The main thing I'm looking to sell is BO2 mods
I have quite the variety of features

I don't need to recover anyones profile. All you have to do is be on the same game. Console doesn't matter. I can give you whatever features/achievements you want for any game listed in that picture. Aimbots, hitboxes, god mode, super speed, all that good stuff. Just gotta tell me what ya want

I am not responsible for any bans that may occur

The cost is \$10 per user
Bitcoin or paypal

Giving away 1-2 vouch copies to trusted members.

Be aware that I am not always available during the day. I do work 3/7 days so I won't be modding 24/7

PM to contact

Is this an infection for the mods or are you giving like co-host or what is this?

EDIT: I mean, for the mods will people have to always be in your game or is it stuck with them till they dashboard or go to main menu?

Yes what I'm offering is infections

Once you get off the game the infections will be gone. On Xbox one you can browse your DB but once you go to another game it will be gone

Are you able to do prestige master on black ops 2 without recovering my account?

Why are you offering it for Xbox One when a jailbreak/exploit hasn't even been released yet?

Black ops 2 is released as backwards compat so I assume he can mod it on the 360 and it will transfer.
