Thread: [PS4 slim in sale, is it worth buying it?](#)

infernuspt - April 14, 2017, 11:52 am

I think there are 2 models of ps4 slim, this one is the first model that is in sale for 180€. Anyone has one that can give me some feedback? Can it run some games at 60 fps or is locked at 30? At the beginning im probably be playing RE7 (it comes with the console) and some rocket league.

Thanks.

Pochino - April 14, 2017, 11:17 pm

Better get the ps4 pro .. slim and pro is not the same

FoolofRemorse - April 15, 2017, 4:26 am

After the normal PS4 there are released 2 new models (Slim and Pro) the slim have the same hardware as the old PS4 (fat) but it is with new chassis (it is quieter than the fat version). The Pro have a better hardware, support 4K, HDR and etc.

If you have more money just buy the Pro (also if you have expensive TV, because there is no point of buying Pro for cheap TV).

RAGTHANATHOS - April 15, 2017, 4:45 am

As far as my knowledge goes, this is also a 'console'. So no, I do not recommend it.

(don't take this too seriously please but pcmasterrace.)

Oh yeah i forgot to mention i do not own a 4k TV. I only have a 1080p monitor. I think im taking this sale.

Thanks.

Not worth buying the Pro then. Yes take the sale, the price is good. Are you in Germany?
