So instead of using that education to get a job you'd rather work for skids?

I make more than enough at my own company.

I'm offering this service to provide a professional quality service at a price that's affordable to users. This is more of something to do on my free time which I will soon be having a lot of. I enjoy solving problems and watching my hard work pay off; even though it's on my free time I don't see anything wrong with making a little money in the process. As I don't have any constant bitcoin cashflow this would also help with other projects that I am currently operating with out having to go through a long process of obtaining bitcoin.

May be interested in the near future for a clothing company.

I know it's a saturated/hard market but some consultation may come in handy.

?

I have assisted in multiple clothing companies.

When you're ready give me a holler ?

Please keep in mind that this is an actual sales thread.

Be a little more respectful.

Also as a side note, this intended for white hat businesses. Though I've consulted with a few of you already on black/greay projects I'd like to mainly keep it white hat.

Thanks
